Dear Customer,

Allow us to provide a brief guide on how to correctly measure your body dimensions. Accurate measurements and clearly recorded information will help ensure the prompt and trouble-free processing of your order.

#### What will you need?

Ask someone to help you with the measurements. Wear close-fitting clothing, but preferably underwear. Use a ribbon tied at the waist, just above the navel.

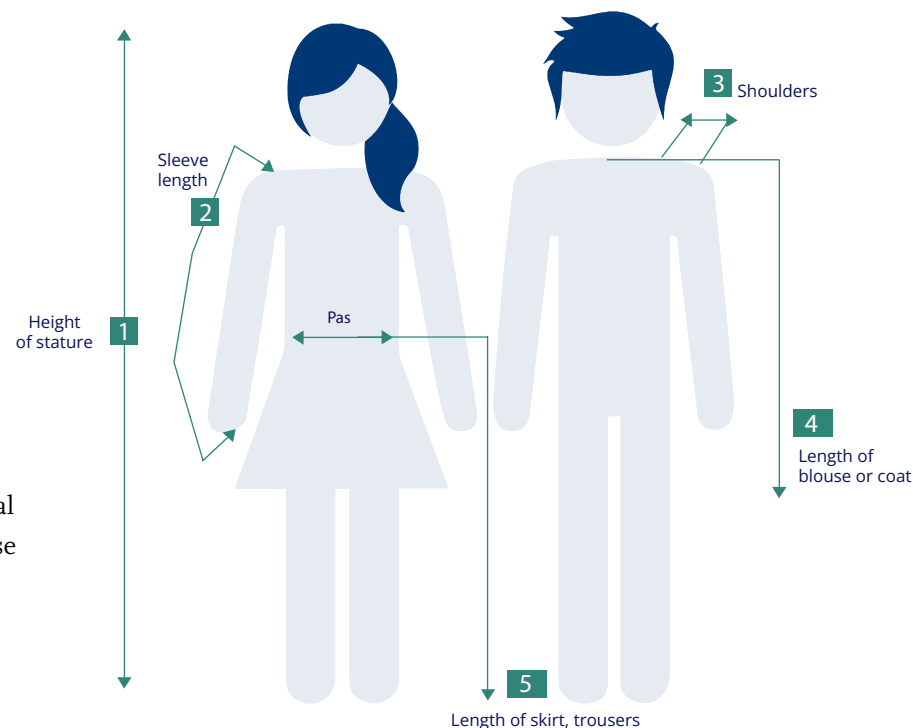

#### Do not add a margin to the established body measurements.

Every Cadenza product has enough added in the cut for freedom and comfort. It is important to mention some other facts such as long arms, wider hips, etc.

#### Character Explanations:

Always measure from top to bottom.

- 1) BODY HEIGHT: Measure the upright figure from the top of the head to the heel.
- 2) Sleeve length including shoulder: Measure the length of the sleeve from the neck over the shoulder and bent elbow down to the wrist.
- 3) SHOULDER: Measure from the neck to the outer edge of the shoulder joint. Body height Waist
- 4) LENGTH OF BLOUSE/SHIRT/COAT/T-SHIRT/DRESS ETC.: Measure from the seventh cervical vertebra vertically downwards. If there is a size difference between the upper and lower body, please advise us of this and request an extension at the point of garment lengthening if necessary.
- 5) SKIRT/PANTS LENGTH: Measure from the waistband, through the hip to the ankle. For low waisted products, measure below the belly button, across the hip to the ankle.
